

My Sister and I Walk the Dog

By Maggie Lyu

My sister and I walk
the dog

Written and Illustrated by Maggie Lyu

How I have missed you

17th 1/4

Love, [illegible]

One sunny day, when I came back from school and finished my homework, my mom just wanted to walk the dog and I had a idea it was "just me and my sister go walk the dog" I say my funny idea to my mom, she said "OK!!!" I think my mom will said 'no but if she said OK I will just go "but" said mom "you need go with your watch" and I agree.

I called my little sister and take my
watch ran to get the dog when I just
want go my mom said "you need to
called me when you walk the dog,
and when dog is finished bathroom
you can come back home and you
must tell me, so I can open the door
of you." I am so excited! Now I'm
go to walk dog just me and my sister!

It was dark out side, my litte sister
said we can walk around the block
and we just do it!!!

It was fun to just me and
my little sister go to walk the
dog!!!
